

This Parcel Map was produced using the City of Cambridge Geographic Information System (GIS). The GIS is a computer based program that provides tools for spatial data analysis. In particular the system enables spatial or geographic data to be stored, retrieved, manipulated, analysed and mapped. The GIS is being implemented City-wide by the City of Cambridge MIS Department.

The GIS was implemented in 1995 to assist in the mapping and analysis of the City's Geography.

For further information regarding the GIS contact:
